ICT SKILLS FOR ALL

NEWSLETTER TAACTIC N°3

SOME NEWS ABOUT THE PROJECT?

In 2022, TAACTIC project is dealing with its fifth and final intellectual output, which will close three years of work, research and meetings to develop e-inclusion and overcome the digital gap that many people still experience in Europe.

Since the beginning of the year, the ongoing deliverables have been finalised, leaving room for the last output, which aims to offer to the target audience innovative educational resources for training in digital professions.

In recent months, and following the easing of health constraints, the partnership has been able to take part in multiplier and dissemination events, notably in France in December 2021, in Italy in April and in Spain and Belgium in summer of 2022.

A QUICK REMINDER ABOUT TAACTIC PROJECT

«Digital is our future. Whether in the field of the economy, employment or or education, digital technology is indispensable in the progress and sustainability of our society»*.

In a world that is constantly changing and tending towards the digitalisation of society and businesses, the digital gap also accentuates social exclusion, sidelining a number of people, both in terms of employability but also in terms of everyday life.

Even if the current trend is towards increasingly reinforced support for so-called fragile support for so-called vulnerable groups, training in basic digital skills remains underdeveloped in Europe.

TAACTIC project aims to set up innovative and inclusive training courses for these groups in order to equip them with basic digital skills to better understand and evolve in the world around us.

TAACTIC reconciles e-inclusion with sustainable employment prospects.

WHAT IS THE STATUS OF TAACTIC PROJECT?

Intellectual output #3 (IO3): Educational activities

Intellectual Output 3 is now finalised. All 23 innovative learning resources created by the project partners have been tested by 323 people, including 258 learners and 65 trainers.

To date, the partnership is in the process of uploading the deliverables on the TAACTIC platform: <https://taactic.eu>.

Erasmus+ Programme
of the European Union

NEXT STEPS?

- Finalizing and uploading the innovative educational resources for training in digital professions (IO5)
- Attending the last steering committee meeting on 16th of June and the final seminar on 17th of June 2022 in Cergy, France
- Launching work for the collection of innovative resources in relation to IO5
- Organising a dissemination event in Spain in May 2022
- Meeting for a dissemination event in Belgium in June 2022

THE PROJECT PARTNERS

In collaboration with
GRETA du Val D'Oise

Intellectual output #4 (IO4): Recommendations report for training in digital professions.

Piloting consisting of administering questionnaires to professionals and organisations in the digital sector resulted in 100 responses, 64 from professionals and 36 from trainers. As a result of the latter, the project partnership was able to finalise intellectual output 4 by creating a booklet of recommendations aimed at leading low-skilled people towards occupations of the future.

Intellectual output #5 (IO5): Resources for training in digital occupations

Intellectual Output 5 is currently being finalised. Over the last few months, 63 innovative educational resources for training in digital occupations have been pointed by the partners. We are currently in the process of finetuning them before translating into all the partners languages.

Multiplier event: «Digital literacy and job placement: no one is excluded».

The multiplier event «Digital Literacy and Placement: no one is excluded» took place over half a day on 6th of April 2022 in San Lazzaro di Savena, Italy. It was attended by 22 participants on site and 7 other participants who were able to follow the presentation online.

Among them were VET trainers, staff of social integration enterprises, experts in vocational integration for disadvantaged people, etc.

They included VET trainers, staff of integration social enterprises, experts in work integration for disadvantaged people, staff of the public administration of Emilia Romagna and of the Municipality of Bologna, as well as staff of the placement centre.

ONLINE MEETING

The partnership met on 25th and 26th January 2022 for the 6th meeting. The first session enabled TAACTIC - ICT FOR ALL project partners to discuss the intellectual output 4: «Pedagogical resources for training in digital occupations» and to collect feedback and recommendations from feedback and recommendations.

The second session focused on the dissemination strategy of the project as well as the planning of the next events in Italy, Spain and Belgium Belgium scheduled for 2022.
